

Visualizing changes over time using dynamic hierarchies:

TreeVersity2 and the StemView

John Alexis Guerra Gómez, Michael L. Pack, Catherine Plaisant and Ben Shneiderman

Product					
Apples					
Oranges					
Milk					
Bread					
Butter					
Orange Juice					
Soda					

So you are collecting some data

Product	Category	Refrigerate?	Boxed	QTY	Price
Apples					
Oranges					
Milk					
Bread					
Butter					
Orange Juice					
Soda					

and it has many attributes

Product	Category	Refrigerate?	Boxed	QTY	Price
Apples				230	\$1.5
Oranges				210	\$5
Milk				93	\$2
Bread				105	\$3
Butter				10	\$10
Orange Juice				143	\$4
Soda				150	\$7

some numerical

Product	Category	Refrigerate?	Boxed	QTY	Price
Apples	Fruit	No	No	230	\$1.5
Oranges	Fruit	No	No	210	\$5
Milk	Liquids	Yes	Yes	93	\$2
Bread	Staple	No	No	105	\$3
Butter	Staple	Yes	Yes	10	\$10
Orange Juice	Liquids	Yes	Yes	143	\$4
Soda	Liquids	Yes	Yes	150	\$7

some categorical

Product	Category	Refrigerate?	Boxed	QTY	Price
Apples	Fruit	No	No	220	\$2
Oranges	Fruit	No	No	110	\$3
Milk	Liquids	Yes	Yes	95	\$1
Bread	Staple	No	No	73	\$2
Cherries	Fruit	No	Yes	22	\$7.1
Orange Juice	Liquids	Yes	Yes	100	\$4
Soda	Liquids	Yes	Yes	190	\$7

And it changes over time...

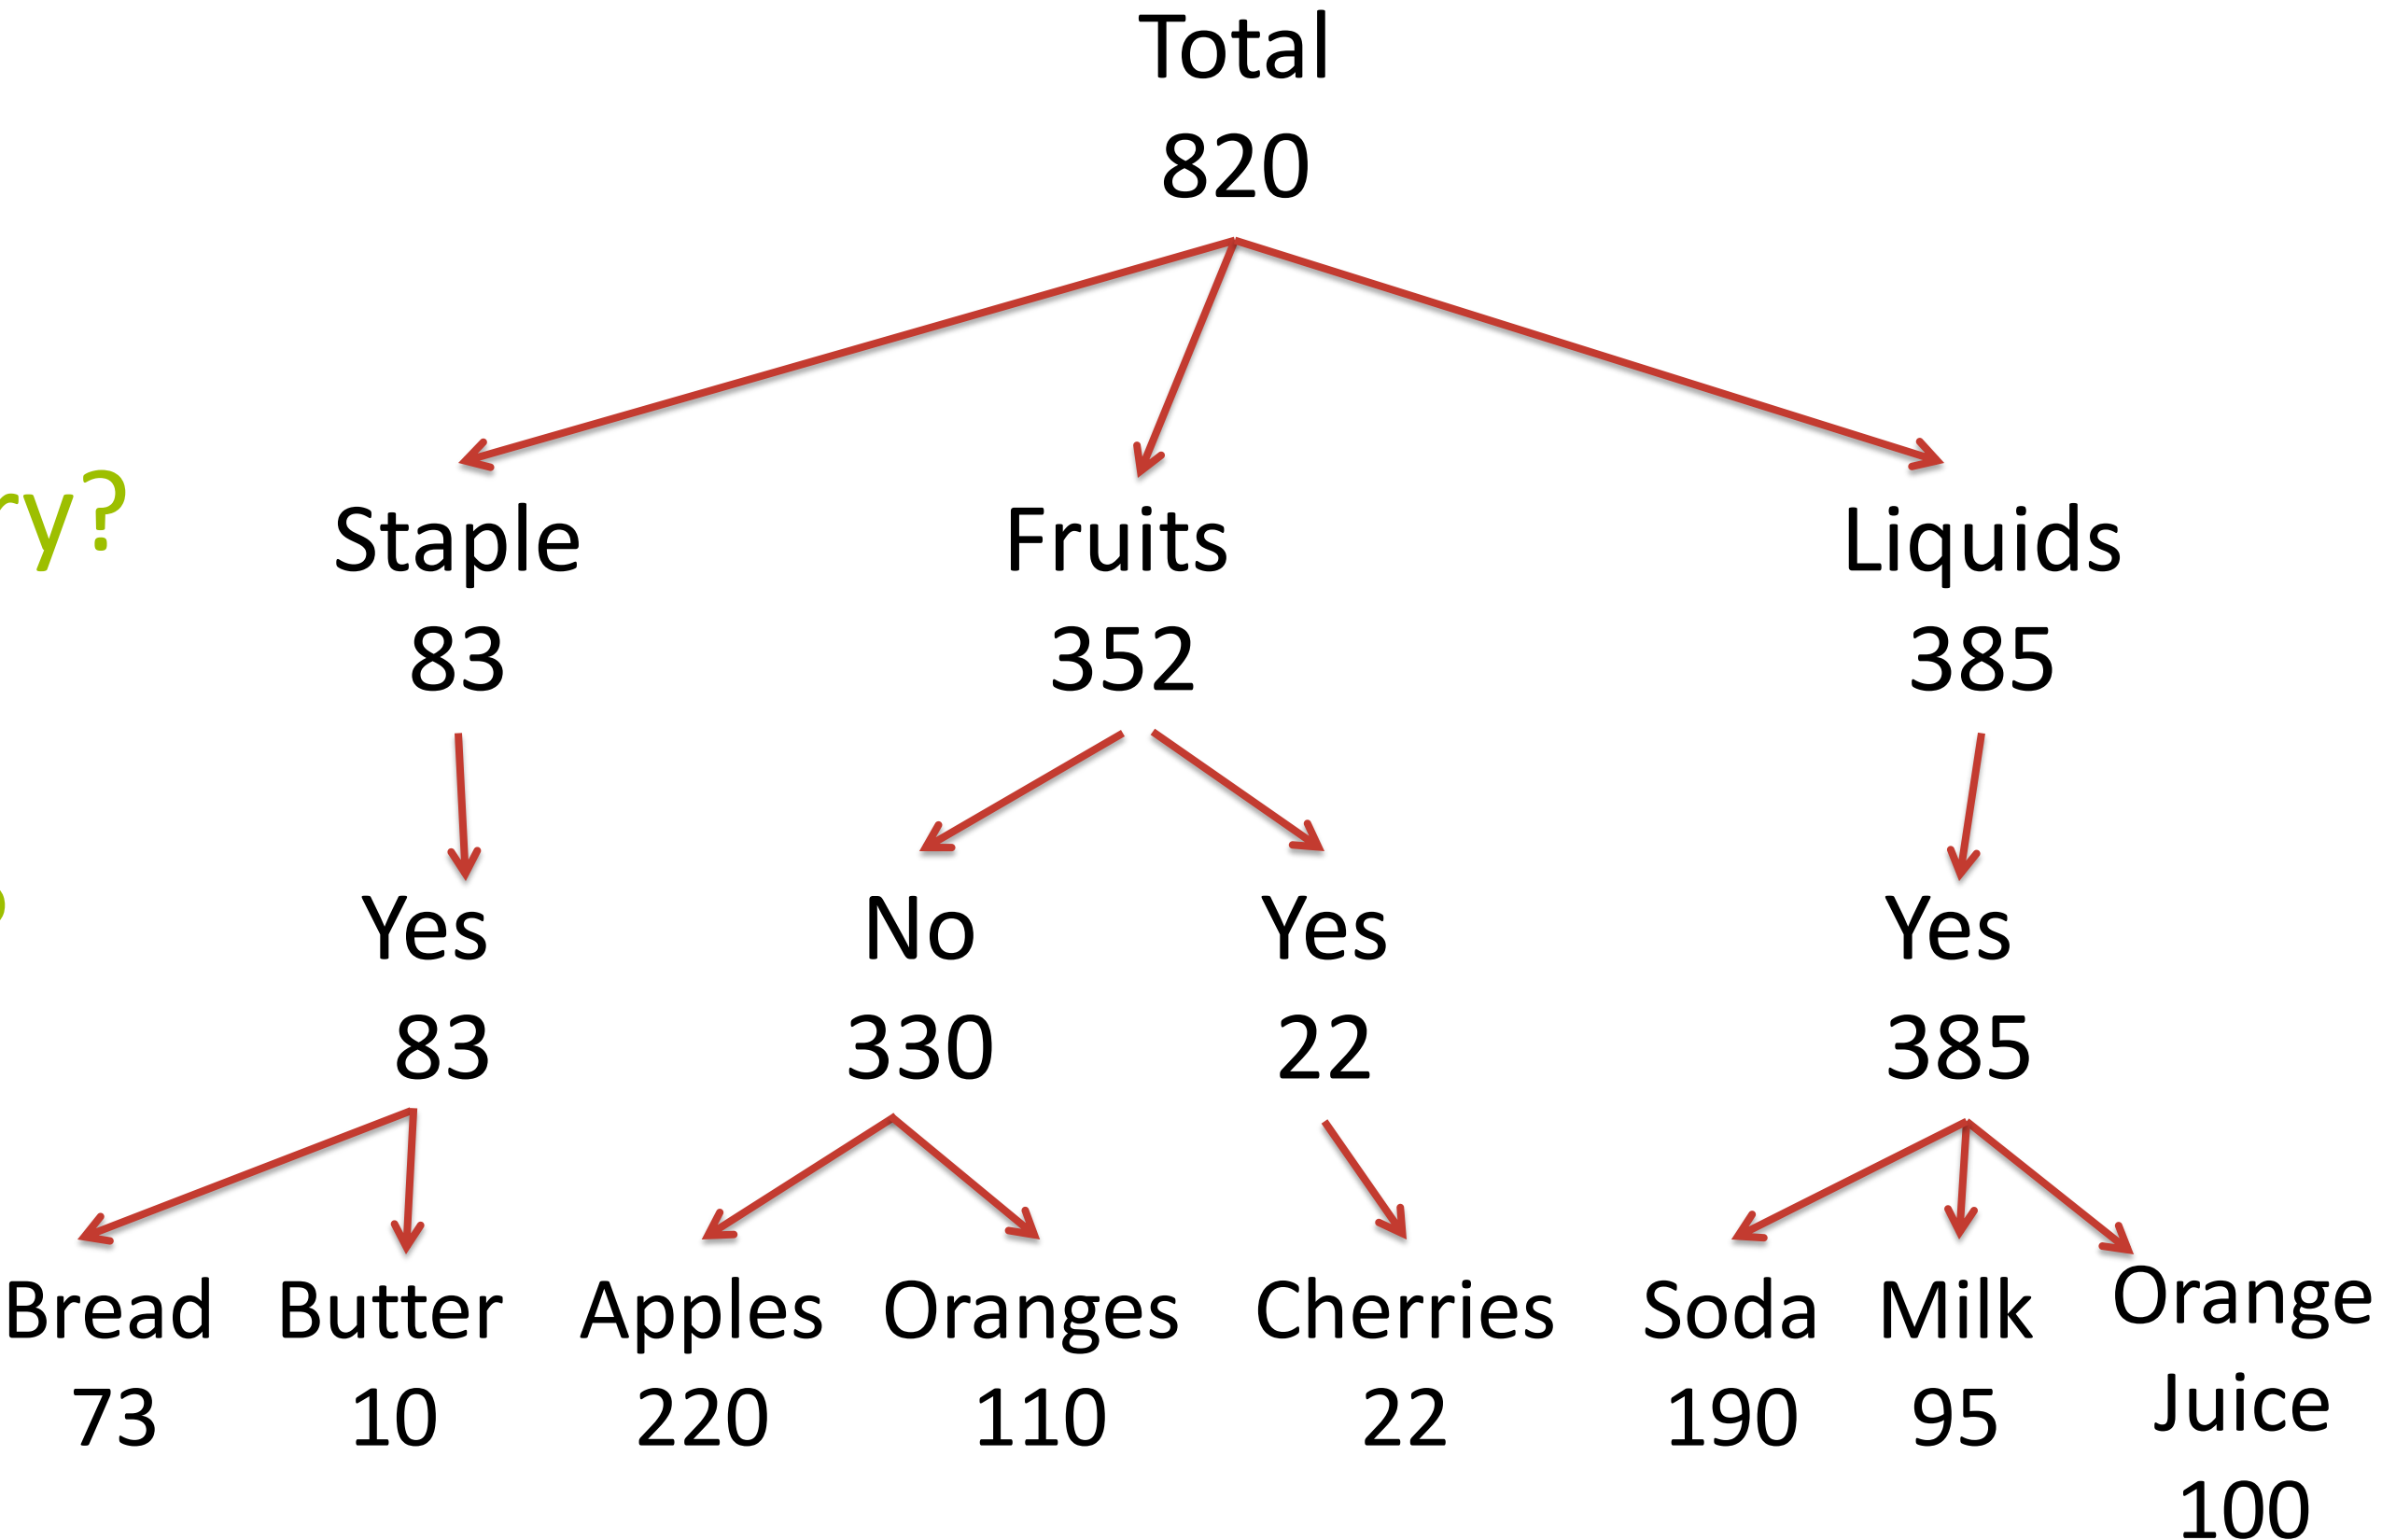

Product	Category	Refrigerate?	Boxed	QTY	Price
Apples	Fruit	No	No	220	\$2
Oranges	Fruit	No	No	110	\$3
Milk	Liquids	Yes	Yes	95	\$1
Bread	Staple	No	No	73	\$2
Cherries	Fruit	No	Yes	22	\$7.1
Orange Juice	Liquids	Yes	Yes	100	\$4
Soda	Liquids	Yes	Yes	190	\$7

What Changed?

Category?

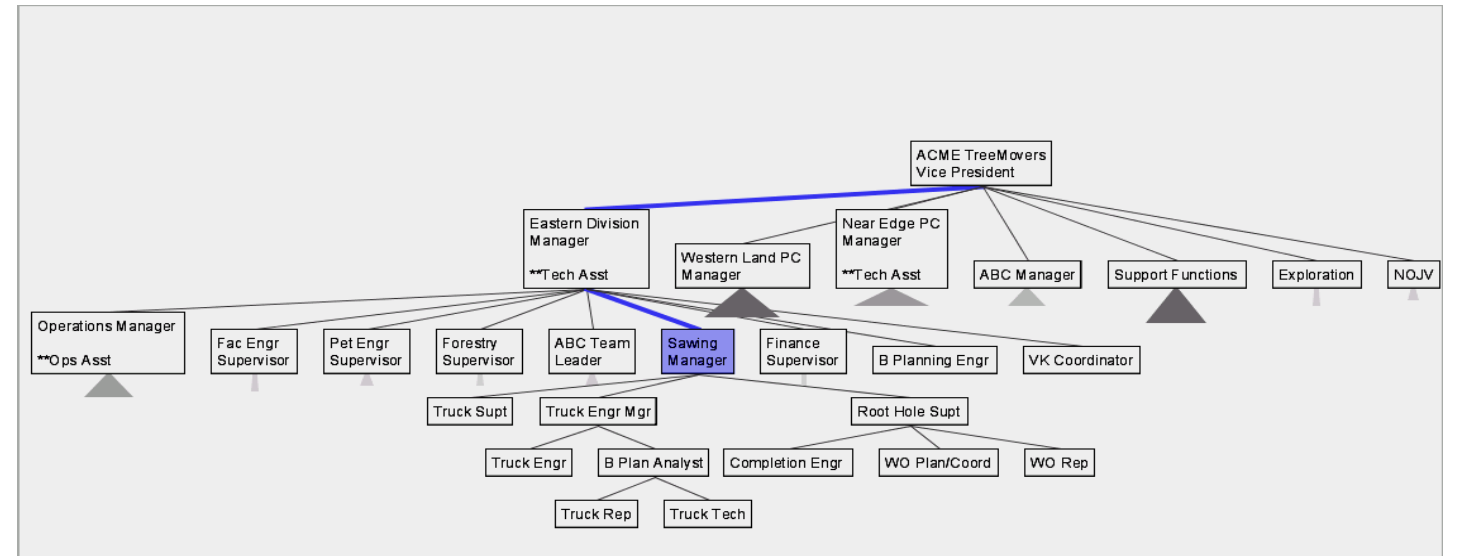

Boxed?

...and we are really good with them

TreeMaps [Johnson & Shneiderman 1991]

SpaceTree [Plaisant, Grosjean & Bederson 1998]

Visualizing

Navigating

Storing, Computing, etc...

A photograph of a forest scene. On the left, a large, dense evergreen tree with dark green needles dominates the foreground. To its right, a deciduous tree with a thick, moss-covered trunk and bare branches stands prominently. Further right, another deciduous tree with bright yellow-green leaves is visible. The background is filled with more trees, some evergreen and some bare, under a pale sky. The text "What about comparing them?" is overlaid in white at the bottom.

What about comparing them?

Definitions

Tree

- Set of nodes and links that express the parent-to-child relationship.
- Where each node:
 - Is uniquely labeled in the tree.
 - Contains one or more numeric variables with values over time.
 - Contains one or more categorical attributes that may have more than one value.

Types of Trees

Fixed

A bright yellow, three-dimensional rendering of a standard safety hard hat is centered on a plain white background. The hard hat is shown from a slightly elevated, three-quarter perspective, highlighting its curved shell and the vertical ventilation slots on the sides. The text "Live Demo" is superimposed in the center of the hard hat's forehead area.

“The work I can achieve with TreeVersity is equivalent to years of analysis with our previous methods”

“TreeVersity easily showed us multi-years of the data in a graphical form at once without having to download the data into excel and create graphics. We can do that analysis now, but TreeVersity was much quicker.”

“I've spent many hours in color coded Excel files expressing changes at query and category levels. The visualization and what changed views made this process much more efficient and easier to share.”

“Numerous examples of obvious, but heretofore unrevealed patterns were discovered.”

“We use Hyperion and excel for analysis. However, TreeVersity made it much easier to see multi-year trends.”

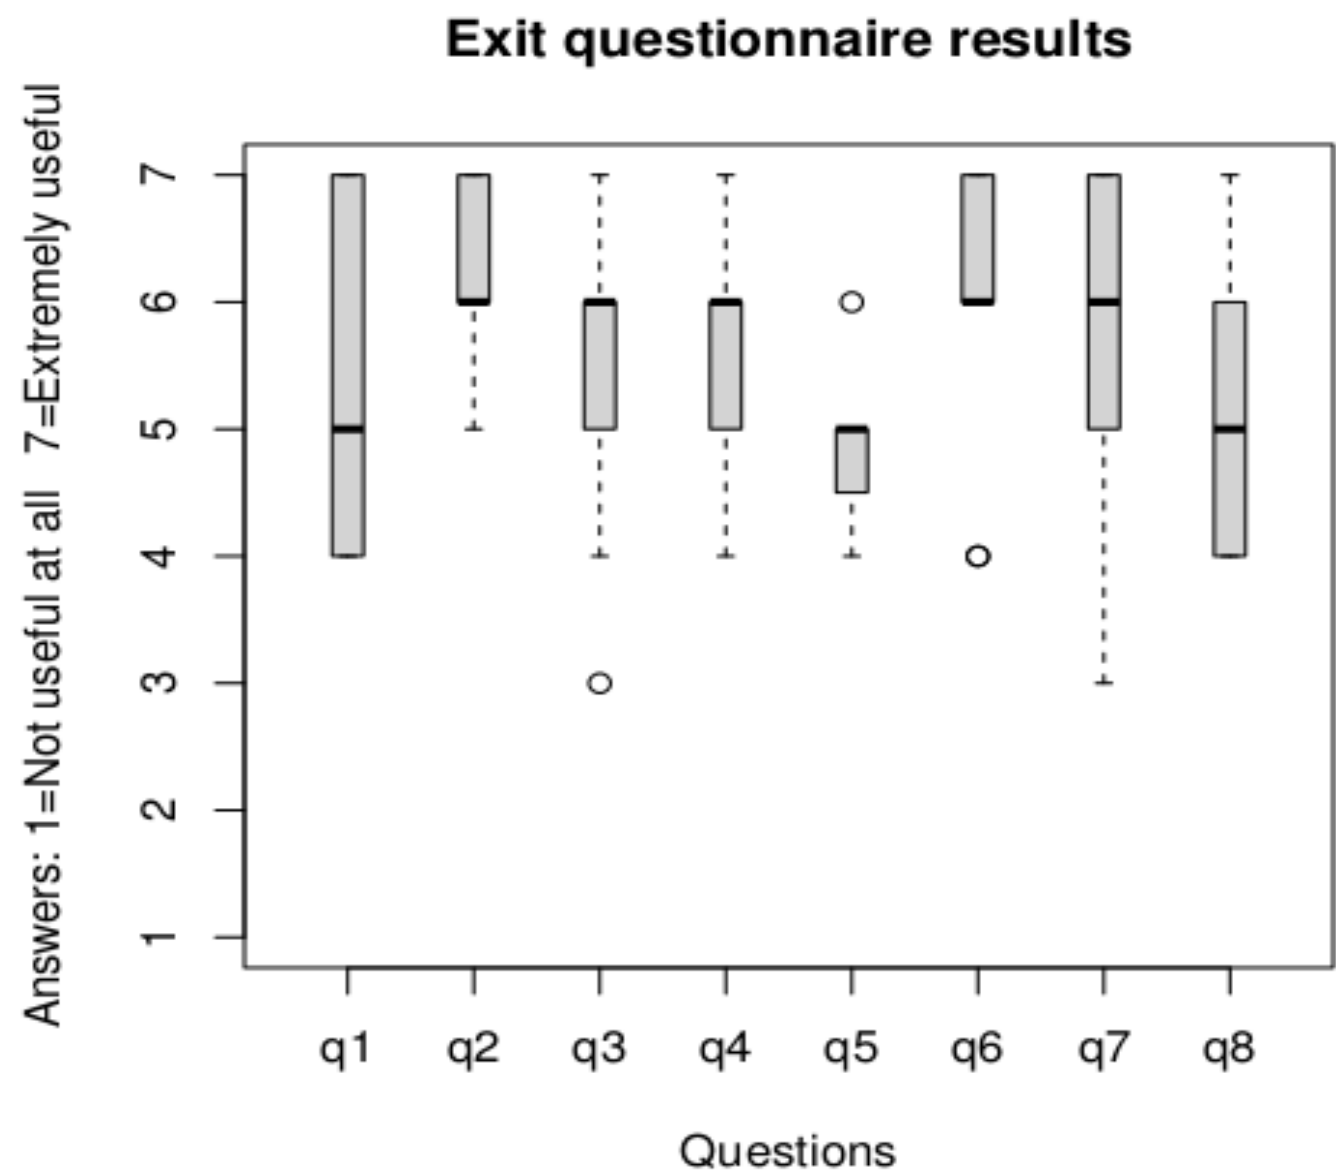

We need to run it in-site, and cannot install all the requirements

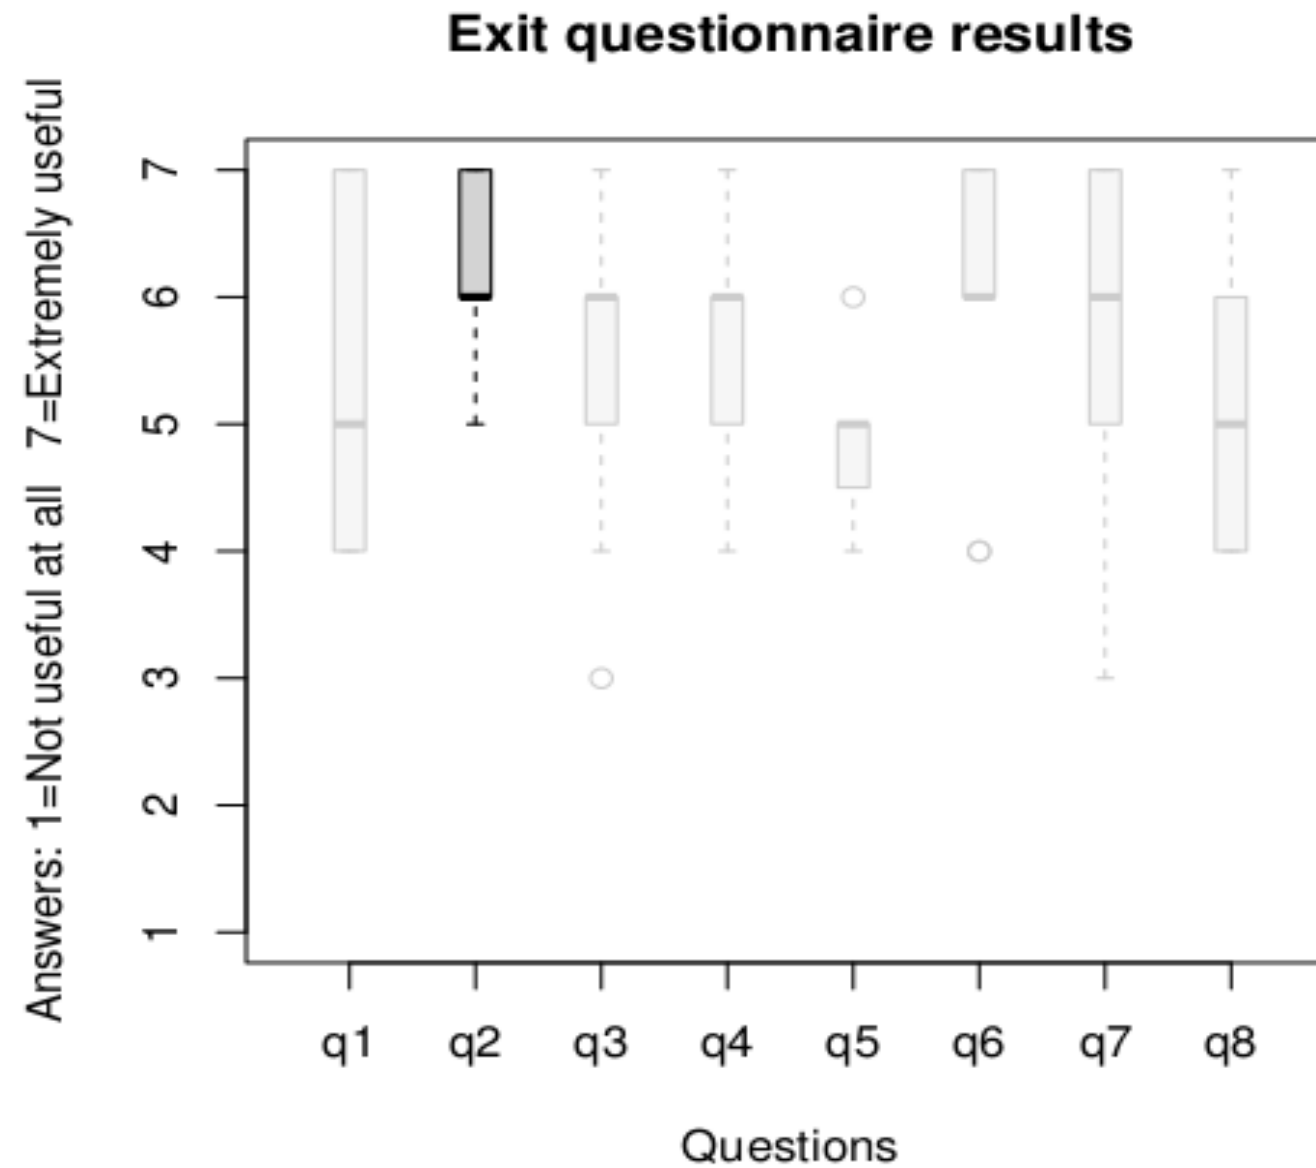

It shows too much information

We need to see more information

It requires some training to understand the StemView

- q1: For this particular case study TreeVersity was:
- q2: In general the tool is likely to be:
- q3: Did the reporting tool help direct your exploration?
- q4: Did you find the StemView comprehensible?
- q5: Did you find the Bullet comprehensible?
- q6: Would you like to continue working with Treeversity?
- q7: Would you be willing to install and use Treeversity on your own?
- q8: How does this compare to your original expectations before starting with the tool.

q2: In general TreeVersity2 is likely to be

1: Not useful at all

7: Extremely useful

q4: Did you find the StemView comprehensible?

1: Not comprehensible at all

7: Extremely easy to comprehend

q6: Would you like to continue working with Treeversity

1: Not at all

7: I will definitely use it
